Network Diagram:

Task Dependencies:
- SCRUM-65 depended on SCRUM-54

Critical Path:
- SCRUM-54 → SCRUM-65

To keep the sprint on schedule, we did the following:
- Ensured all tasks are well-defined and their dependencies are understood.
- Conducted daily stand-up meetings to track progress and address blockers.
- Regularly reviewed the sprint progress and adjusted as needed.
- Maintained clear communication among team members.
- Focused on completing tasks on the critical path first to avoid delays.
